The number/letter combination indicates the type of packaging and material of construction. The chart listed above shows what each letter and number combination would mean.

### Packaging Identification Codes

- **Numerals (1-7):** Type of Packaging
  - 1=Drum
  - 2=Wooden Barrel
  - 3=Jerrican
  - 4=Box
  - 5=Bag
  - 6=Composite Packaging
  - 7=Pressure Receptacle
- **Capital Letter:** Material of Construction
  - A=Steel
  - B=Aluminum
  - C=Natural Wood
  - D=Plywood
  - E=Reconstructed Wood
  - F=Fiberboard
  - G=Plastic
  - H=Textile
  - J=Paper, multi-wall
  - K=Other Metal
  - L=Textile
  - M=Other
  - N=Other Metal
  - P=Glass, Porcelain, Stoneware
- **Number:** Subcategory of Packaging
  - For Drums: 1=Non-removable Head
  - 2=Removable Head
  - For Bags: 5M1=Multiwall
  - 5M2=Multiwalled, water-resistant

### United Nations Symbol

- 4G/X 3 / S / 11/USA / LM0000
- 1A1/X1.5/250/11/USA / LM0000

### Packaging Identification Codes

1) There may be a number-letter combination indicating a type of packaging and material of construction. For example:
   - 4G = Fiberboard box
   - 2D = Plywood wooden barrel

2) There may be a number-letter-number combination indicating the type of packaging, material of construction and a subcategory within the type of packaging or variation. For example:
   - 1A1 = Non-removable head steel drum
   - 4GV = Fiberboard box variation packaging

3) The description may also show a number-letter-letter-number combination. This mark includes the number six indicating a composite type of packaging, two letters, the first indicating the inner receptacle’s material and the second letter indicating the outer material and a second number indicating the type of packaging (not a subcategory). For example:
   - 6HA1 Composite packaging consisting of a plastic inner, steel outer, drum.
   - 6CD4 Composite packaging consisting of a natural wood inner, plywood outer, box.

### Packing Group Level Equivalent

- **X=** Packing Group I
- **Y=** Packing Group II
- **Z=** Packing Group III

- **4G/X 3 / S / 11/USA / LM0000**
- **1A1/X1.5/250/11/USA / LM0000**

- **The letter X, Y or Z indicates what packing group the package was tested to.**
- **X=** Packing Group I
- **Y=** Packing Group II
- **Z=** Packing Group III

Under the regulations, if a packaging has been tested to the highest degree of danger, it may be appropriate to place materials in that packaging which have a lower hazard. Therefore, the following is also correct:

- **X=** Packing Group I, II, III
- **Y=** Packing Group II, III
- **Z=** Packing Group III

### Gross Mass or Specific Gravity

- **4G/X 3 / S / 11/USA / LM0000**
- **1A1/X1.5/250/11/USA / LM0000**

For single or composite packagings intended to contain solids or combination packagings for all materials, the mark will include the maximum gross mass (kilograms) that the package can weigh when filled (packaging plus its contents).

For liquid hazardous materials in single or composite packagings, the mark will contain the maximum specific gravity allowable for that packaging.
Example of UN Marking for Solid Hazardous Materials in Single or Composite Packagings or Combination Packagings for All Materials

4G/X 3 / S / 11/USA/LM0000

Example of UN Marking for Liquid Hazardous Materials Single or Composite Packaging

1A1/X1.5/250/11/USA/LM0000

Hydrostatic Test Pressure

For single or composite packagings intended to contain solids or combination packagings for all materials, the mark will include the maximum gross mass (kilograms) that the package can weigh when filled (packaging plus its contents). For liquid hazardous materials in single or composite packagings, the mark will contain the hydrostatic pressure the container was tested to.

Year and Location of Manufacture

The marking must indicate the last two digits of the year of manufacture.

Identification of the Manufacturer or Approval Agency

The identification of the party who is certifying that the packaging meets all of the required testing must be included in the mark.

This may be shown in the form of a name and address, symbol of the manufacturer or code of the agency certifying compliance. If a symbol or code is used, both must be registered with RSPA.
