PROOF OF DESIGNATION

This form may be used as a *Proof of Designation* by a *Designated Approved Collector*, pursuant to 14 CCR 18660.5(a)(34), when secured from a California local government and duly executed by an officer authorized to take action on behalf of that local government, such as, but not limited to, a City Manager, County Administrator or Executive, or a District Manager or Director. If a Designated Approved Collector chooses to use this form as a Proof of Designation, this form must accompany the covered electronic waste (CEW) collection logs associated with CEWs transferred from a designated approved collector to an approved recycler. A copy of this Proof of Designation and associated collection logs must also accompany any recycling payment claim that includes CEWs received from a designated approved collector.

DIRECTIONS FOR COMPLETING THE PROOF OF DESIGNATION FORM

This form may be completed by a local government to demonstrate that it has designated the identified Approved Collector in the Covered Electronic Waste (CEW) Recovery and Recycling Payment System to act as a Designated Approved Collector for the local government when handling CEWs generated from California sources within the jurisdictional responsibility of the designating local government.

The proof of designation must be duly executed by an officer of the designating California local government with the authority to take official action on behalf of the local government such as, but not limited to, a City Manager, County Administrator or Executive, or a District Manager or Director.

Only CEW recovery activities that fall within the scope of the designation may be handled by the identified Approved Collector while acting as a Designated Approved Collector for the local government. CEW recovery activities conducted by the Approved Collector that fall outside the scope of designation must be logged and recorded according to applicable regulatory requirements.

LOCAL GOVERNMENT DESIGNATIONS

- What do I need to know?
 - Collectors can and do operate within your jurisdiction without designations. They are not necessary or required for collection services to take place.
 - Consult with in-house legal counsel to formalize any arrangements to ensure you are protected and get the service expected.
 - A designation provides the collector some CalRecycle documentation relief, with the expectation that the local government will exercise sufficient oversight.

LOCAL GOVERNMENT DESIGNATIONS

- What is changing?
 - 30 day advanced notice prior to collection activities taking place.
 - The local government representative signing the designation must be duly authorized and empowered to execute agreements and/or contracts related to waste management in the name of the jurisdiction.
 - The designated approved collector will communicate updates of their activity to the local government so that the local government can properly fulfill form 303 HHW annual reporting requirements.
