"BERC is an invaluable tool that has been very helpful to our members!"

David McClune, California
Autobody Association

"As a small business owner, I am constantly faced with ever changing Federal, State, and County environmental regulations. BERC is a resource that helps achieve compliance with a true compassion and concern for the small business owner."

Tom Lyon,
OilStop of Sacramento

"...you folks are doing a great service to the local businesses. I was impressed... the (workshop) content was excellent..."

State of California Representative

"We called the Sacramento County building permits office and they referred us to BERC. BERC almost immediately followed up our phone conversation with an incredibly informative e-mail on asbestos waste disposal. We were able to research our questions and make an informed decision on how to proceed with our project. We couldn't be more impressed. Thanks!"
