

The background of the slide is a photograph of a clear blue sky with scattered, wispy white clouds. The clouds are more concentrated towards the bottom and right sides of the frame.

The Waste Knot™ Solution

Waste – The Opportunity

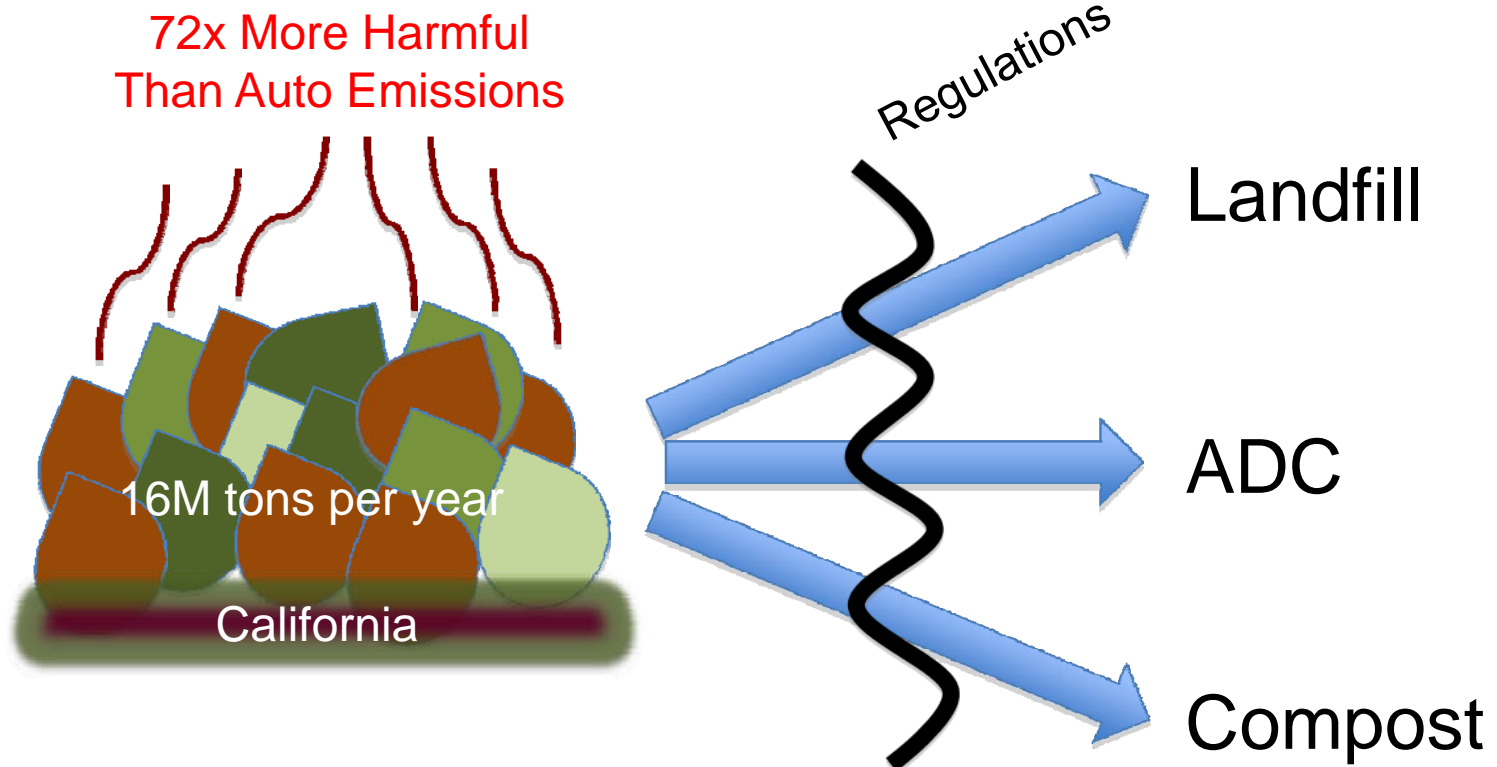

$$\times \$40 = \$640,000,000/\text{yr}$$

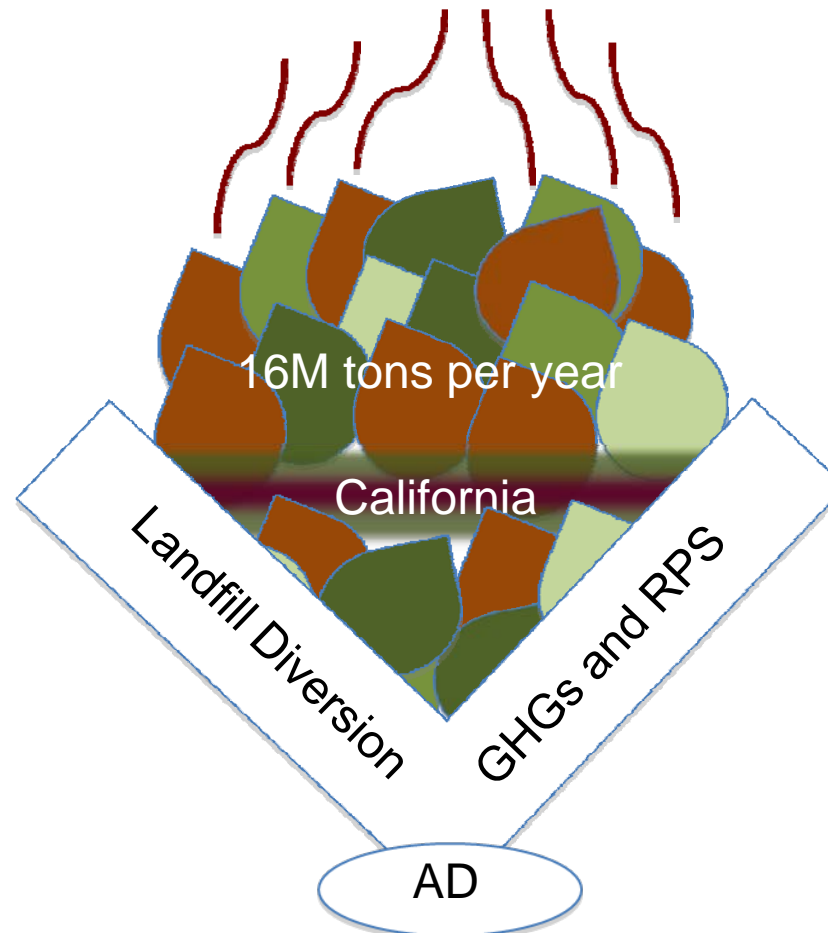

(byproducts sale) + \$400,000,000

CA mkt cap = > **\$1 billion**

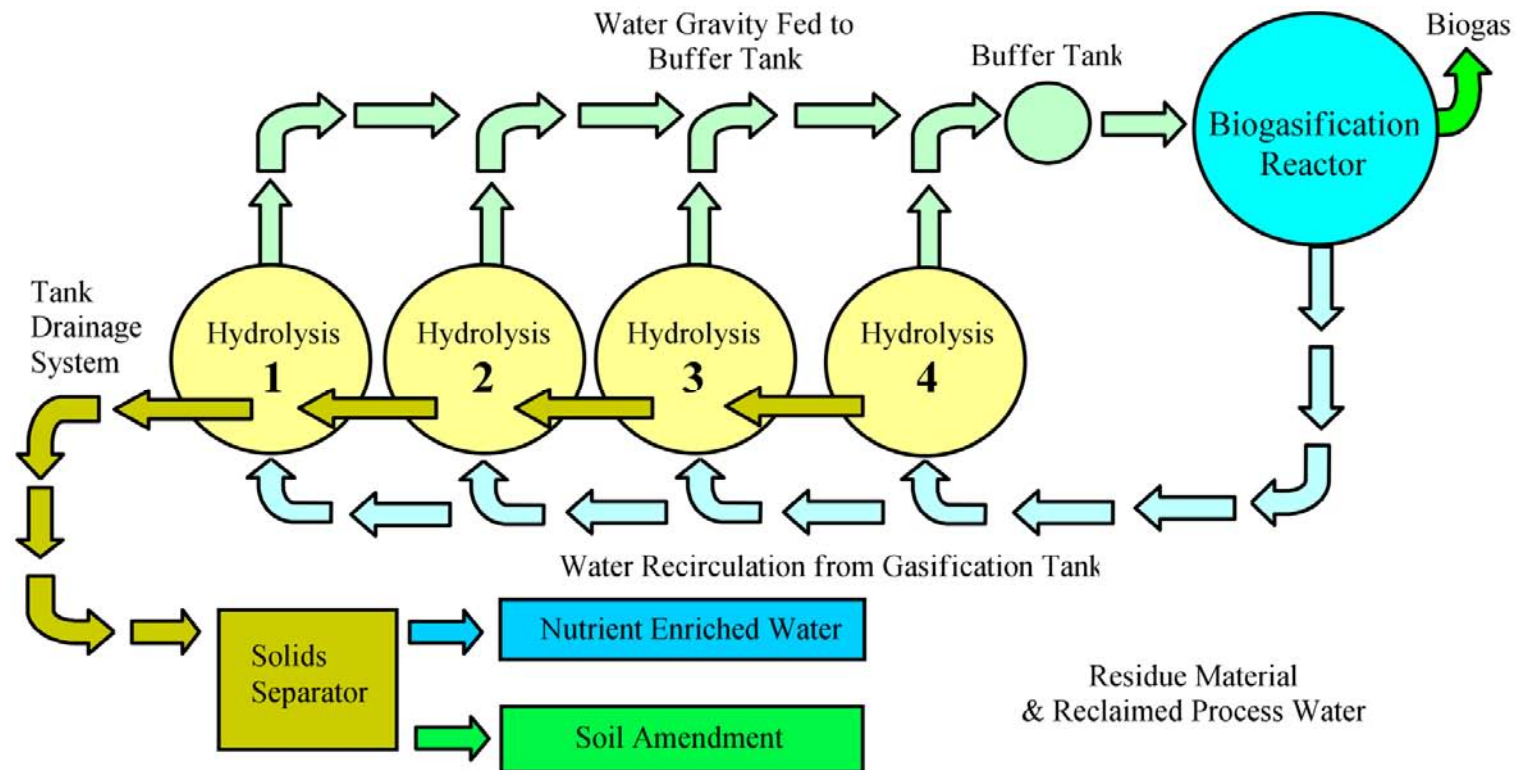

Waste – Whoa!

Waste – Now What

What is AD?

Works just like the human digestive system

Technology

- AD accepted by environmentalists and regulating bodies
- High-liquid AD systems prevalent in U.S.
- High-solid AD systems used in Europe – Expensive & Inefficient
- Recent significant advances in AD technology
- UCD AD system – Less Expensive & More Efficient – Proven but not deployed
- Federal govt has made \$83B available for clean tech investment

AD Technology – UC Davis

CWP Team

Executive

Warren Smith, CEO
Greg Hayes, President
