

Grant Program Overview

Tire Incentive Program (TIP)

Ø What is it?

- This competitive grant program provides a reimbursement (as an incentive payment) to eligible businesses that use crumb rubber in eligible products or substitute crumb rubber for virgin rubber, plastic, or other raw materials in products that are sold

Ø Which businesses are eligible?

- Manufacturers or waste tire processors that produce (or will produce) an eligible product for themselves or on a contract basis for others
- Manufacturers of calendered rubber sheeting products
- Rubber compounders

Grant Program Details

Tire Incentive Program (TIP)

Ø How much money is available for grant awards?

- Grant awards range from a minimum of \$25,000 to a maximum of \$500,000

Ø What are the requirements?

- Applicants must be California-based or incorporated in another state qualified to do business in California with a manufacturing facility in California
- Applicants must have been operational for at least three years
- All crumb rubber must be from California-generated waste tires processed in California (no out-of-state processed material)
- Product must contain a minimum of five percent crumb rubber (or end-of-life material) and may include tire buffings

Grant Program Details
