

# 17<sup>th</sup> Technical Training Series

**April 3-6, 2017 · Long Beach Hyatt**  
200 South Pine Avenue · Long Beach, California, 90802

**CalRecycle** 

# Electronic Inspection Reporting (Tires)

# Purpose of Today's Session

- ▶ Review electronically completing inspection report forms
- ▶ Review pre-inspection preparation steps
- ▶ Review providing complete documentation
- ▶ Review writing defensible inspection reports

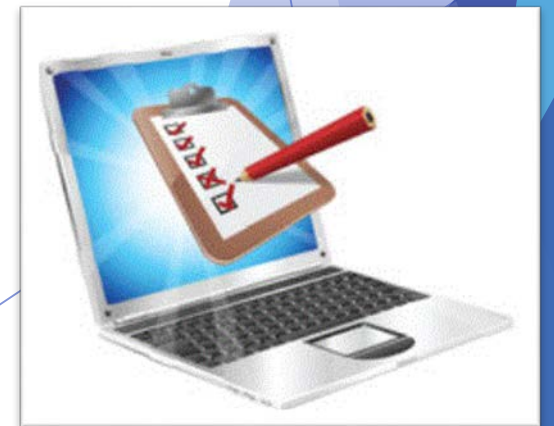

# Inspections

- ▶ Inspections are the core component of TEA Cycles--area where most grantees' time and money should be spent.
- ▶ In 2015, TEAs performed 91% of the approx. 21,000 waste tire inspections conducted.
- ▶ 3 main components:
  - ▶ **Pre-inspection research/preparation in WTMS**
  - ▶ Conducting the inspection onsite
  - ▶ **Writing & submitting the inspection report**

# Preparing for an Inspection

*Review--* **Access Waste Tire Management System (WTMS)!!!**

- ▶ Facility Business Summary Page
  - ▶ Determine what business role is (generator, end-use facility, hauler)
  - ▶ Determine if business has any Permits/Exclusions/Exemptions
  - ▶ Review business mailing address, contacts & email addresses/print out & bring to confirm during inspection
  - ▶ Review Notes

### Part B - Inspection of Waste Tire Dealer, Generator, and End-Use Facility

**Enforcement Status:** In Compliance

**Compliance Deadline:**

**Comments:**

Permission to inspect granted by Jane Doe, Manager.

TPID posted in lobby.

Reviewed past 3 years of CTLs; everything in order.

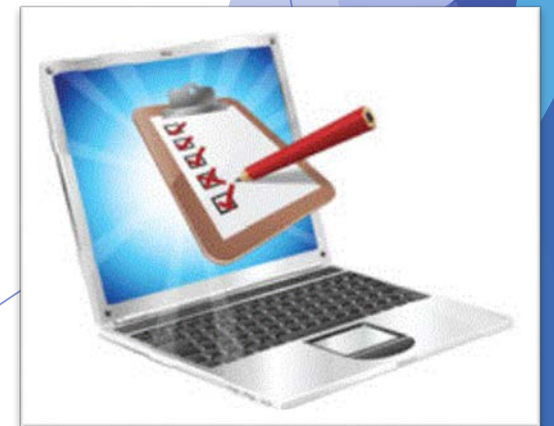

120 waste tires stored outdoors.

Business is in compliance at time of inspection.

# Preparing for an Inspection

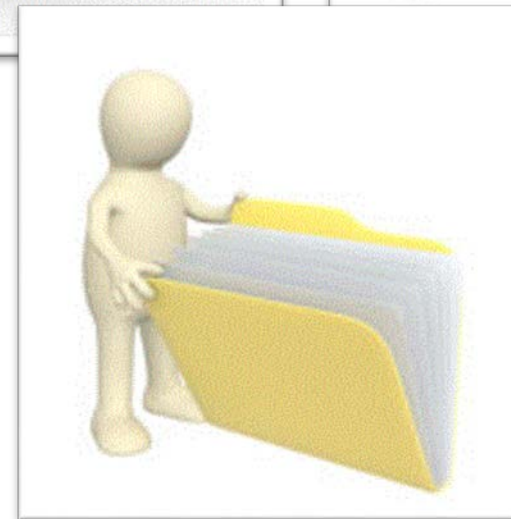

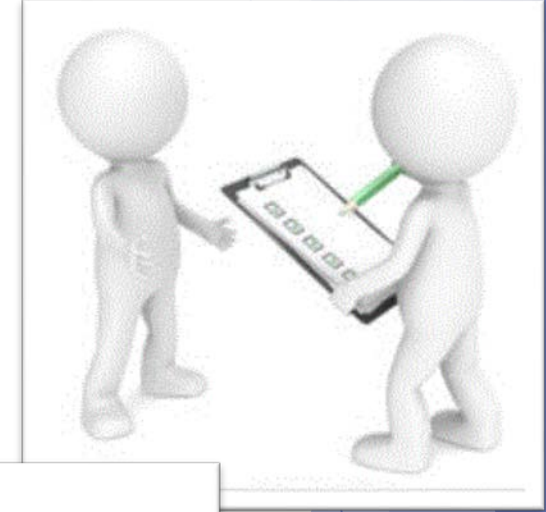

*Review--* **Access Waste Tire Management System (WTMS)!!!**

- ▶ Facility Business Summary Page
- ▶ Review and Print (or export Excel file) of 3 Years of Generator CTLs (and Hauler CTLs, if applicable)
- ▶ If Facility is a Hauler, review and print Hauler Vehicle Summary Page
- ▶ Last Several Inspection Report(s)
- ▶ Prepare and bring NOV and Citable Offenses Handouts, and Hauler Observation Reports with you for your inspections

# Basic Components of Inspecting a Waste Tire Facility

- ▶ Obtain Permission to inspect
- ▶ Review TPID certificate
- ▶ If Facility is a Hauler, check registered vehicles
- ▶ Review waste tire manifests (3 years)
- ▶ Count waste tires/Evaluate waste tire storage compliance
- ▶ Exit Interview

# Inspection Comments for Compliant Facilities

- ▶ Permission obtained to inspect & take pictures as necessary.
  - ▶ Name & title of person granting permission.
  - ▶ Whether photos were taken.
- ▶ TPID certificate sighted & posted.
- ▶ Results of the CTL review/discrepancies.
- ▶ Tire count—describe method(s) used and if necessary, show your calculations.
- ▶ If no violations are noted, then “Business is in compliance at time of inspection.”

# Area of Concern vs. Violation

- ▶ Description of any **Areas of Concern** noted on the report.
  - ▶ Reviewed with the operator that these may become violations in the future if they are not corrected.
- ▶ Rely on inspector discretion.
- ▶ Need to maintain level playing field (consistency in enforcement) so default should be Violation.
- ▶ Examples of where an AOC might be appropriate:
  - ▶ “Minor” CTL issues.
  - ▶ Missing or not posted TPID certificate.
  - ▶ Compliance assistance/educational inspections.
  - ▶ Used tire storage issues.

# Additional Inspection Comments for Non-Compliant Facilities

- ▶ Description of all **Violations** noted—
  - ▶ Cite specific law/regs, & say specifically what is not in compliance & how compliance needs to be demonstrated.
  - ▶ Include photos demonstrating violations or AOCs
  - ▶ List who you discussed the violations or concerns with and what was their response.

## Additional Inspection Comments for Non-Compliant Facilities (cont.)

- ▶ List NOV Rights and Responsibilities and Citable Offenses handouts given to operator or representative & how delivered (e.g., in person, by mail or email).
- ▶ Exit interview—with whom, what you told them & what you gave them.

# Compliance Deadline Date

- ▶ **Compliance deadline date**—when all violations must be corrected
  - ▶ No more than 30 days from the inspection date.
  - ▶ No more than 90 days for recordkeeping/manifest violations (14 CCR 17357 and 14 CCR 18459.2.1 through 18462).
    - ▶ To provide adequate time to assess if corrective action has been taken.
    - ▶ If infrequent CTL transactions, consider giving Area of Concern instead.
  - ▶ Granting extensions at re-inspections are not automatic—
    - ▶ Document what good faith efforts warrants extension (for all).

# Examples of Good Inspection Summaries

“Permission to inspect granted by (name/title).

TPID posted in (location).

3 years of CTLs available for review. Everything in order.

# of waste tires(directly/volumetrically estimated) counted,  
stored (location: indoors/outdoors/container).

Business is in compliance at time of inspection.”

If you provide any educational or information materials to the operator, please note this in the comments as well.

# Examples of Good Inspection Summaries

“Received permission to inspect from John Doe, Owner of Mockingbird Tires. TPID certificate posted in managers office. All CTLs for the past 3 years are on file at the facility.

703 waste tires on site calculated as follows: (one 80 yd<sup>3</sup> trailer of loose stacked passenger/light truck tires <10' in height = 10 tires/yd<sup>3</sup>, 58 loose piled passenger tires, and 5 tractor tires.  $80 \times 10 = 800 \times 0.8$  (20% reduction for volumetric estimations) = 640 tires in the trailer + 58 passenger tires + 5 tractor tires = 703 tires).

**Area of Concern** - This facility stores more than 499 but less than 1500 waste tires on site for less than 90 days however no permit exclusion form is on file. A permit exclusion form has been provided to the facility, attached to the email containing this report; please complete and submit permit exclusion form to establish your exclusion for requiring a permit when storing more than 499 waste tires. No violations noted”

# Examples of Good Inspection Summaries

“Permission to inspect granted by (name), owner. TPID was posted. Asked to review 3 years of CTLs, everything in order.

533 waste tires volumetrically calculated, stored outside between shop and back fence line (tire calculation on page 2)

Owner is informed that he is in Violation by storing over 499 waste tires on site, therefore requiring a Minor Waste Tire Facility permit (PRC 42834, and 14 CCR 18420(a)). To achieve compliance, you must have a registered hauler come and remove waste tires until you are storing below 499 waste tires, and maintain a count of 499 or under at all times.

I will come back to re-inspect after the Compliance Deadline date - if you are still in violation you will be referred to CalRecycle for escalated enforcement. Please refer to NOV Rights and Responsibilities attached to email for more information”

# Examples of Good Inspection Summaries for Businesses with Violations

"WTMS review showed: No enforcement actions, complaints or alerts in the database. Reviewed previous inspection reports and CTLs."

Permission to inspect, take necessary photos and make site maps granted by (name) (service operations manager).

Number of tires determined by direct count.

Documentation for waste tire pickup available for review during the past three years. Lakin Tire is the waste tire hauler.

TPID number certificate still not available for review (no number available during the 7-14-15 routine inspection), which is a violation of 14 CCR 18457.1. Contacted CalRecycle Hotline and requested another duplicate certificate. Made sure the mailing was put attention to (name).

# Examples of Good Inspection Summaries for Businesses with Violations

Permission to inspect was granted by Owner. TPID certificate is posted in the Office. Three years of manifests are onsite and available.

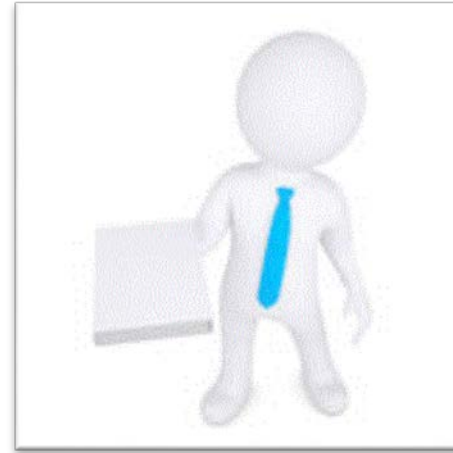

Violation of 14 CCR 18460.2 - Manifest System Requirements for Registered Waste Tire Haulers: All manifests generated from 2014 to current are completed with the incorrect vehicle decal. Operator was made aware of this issue during this inspection. If similar issues are observed during your next inspection, a violation will be issued. Fill out future manifests with the correct decal immediately.

Registered hauling vehicle with license plate ##### was onsite with correct decals and registration. Waste tires were counted using direct count.

No violations were observed.

# CalRecycle Approved Handouts

- ▶ Handouts include the following:
  - ▶ [Facility Permit Exclusion Notification](#)
  - ▶ [NOV Rights and Responsibilities](#)
  - ▶ [Tire Storage & Disposal Standards](#)
  - ▶ [Transportation of Waste & Used Tires](#)
  - ▶ [Permit Requirements](#)
- ▶ Available in English and Spanish.
- ▶ If you give an operator a handout, be sure to note that in your inspection report.

# Inspection Report Process

- ▶ Inspector initiates report
  - ▶ Enters required data and Saves.
  - ▶ Report status “Draft”—can be edited & saved as many times as necessary.
- ▶ Inspector completes report
  - ▶ Coordinate with TEA management & CalRecycle liaison for report review.
  - ▶ Revise report as needed & when done selects “Complete” button.
  - ▶ Report can now be emailed to operator from within WTMS.

# Inspection Report Process

- ▶ TEA submits report to CalRecycle
  - ▶ Selects “Submit to CalRecycle” button.
- ▶ CalRecycle reviews report
  - ▶ If correct & complete, selects “approved” button.
  - ▶ If deficient, changes status back to “Complete” and TEA is instructed to upload Supplemental Information to correct issues or submit new report to supersede the old/incorrect report.

# Emailing E-Reports

- ▶ Electronic inspection reports should be emailed via WTMS emailing system so delivery can be properly documented
  - ▶ A copy of the email and any documents are automatically added to the 'Documents' tab of the facility's profile
  - ▶ Reports should be emailed to facility e-mail address.
- ▶ If a facility does not have an email address, a paper report shall be sent to the mailing address.
  - ▶ Reports should include how report was delivered: paper report was sent via mail to mailing address

Report is in SUBMITTED status – CalRecycle approval of this inspection report is pending.
